

CFP Panel: From Carto- to Atlassemiotics

The 16th international Congress 2020 of the German Semiotic Association

“Transformations of Signs and their Objects“ (Chemnitz, 22. bis 26. September 2020)

To achieve its goals, the German Semiotic Association organizes conferences, colloquia, workshops, courses, lecture series on core areas of its research fields. Moreover, every three years the association organizes an international congress.

Within the 16th international congress „Transformations of Signs and their Objects“ (Chemnitz, 22. bis 26. September 2020), the section „Umwelt- und Karto/Atlassemiotik (UKAS)“ invites for paper proposals.

From Carto- to Atlassemiotics

The section UKAS is a combined section, which connects three applied semiotics - environmental, carto- and atlas semiotics and thus strives for a more application and multidisciplinary orientation.

The panel of the section UKAS is a continuation of the session "Geo, Carto- Atlassemiotics" at the World Semiotic Congress in Kaunas 2017.

The panel is an interdisciplinary research tribune designed to combine semiotic, ecological, cartographic, geographical and other traditions. The topics of the lectures should refer to theoretical-methodological and applied-practical aspects related to various disciplines such as cartography, ecology, geography, media informatics, history, linguistics, tourism, archeology, etc.

The panel focuses on theoretical, methodological and practical directions such as:

- theoretical-methodological aspects of the transformation of cartosemiotics
- formation of new semiotic-applied disciplines (e.g., photo-atlassemiotics)
- atlasing and ubiquity as semiotic categories
- analog and digital sign models: semiotic transformations of maps and atlases
- alternative cartography with semiotic-oriented focuses
- etc.

Please send your proposals for papers in German or English (20 minutes) and a short academic CV by email to Alexander.Wolodtschenko@mailbox.tu-dresden.de no later than 01. December 2019.

The document should include: Title, name of the author, summary of the topic (max. 300 words), affiliation, email address, short-bio, list of publications (max 5).
